# Matheus de Azevedo Wilberstaedt

Full-Stack Developer & Founder · JavaScript, TypeScript,  
React, Node.js

## PROFESSIONAL PROFILE

Full-stack developer and product founder with 5+ years shipping software end-to-end. I don't just write code — I design, build, deploy and maintain products with real paying customers. In production: a multi-tenant SaaS for cleaning companies, serving a client in Brisbane, Australia. Launching in September: FourHub, a mobile marketplace connecting private sellers and verified car dealerships. Fluent across the JavaScript / TypeScript stack (React, React Native, Node.js, PostgreSQL). Relocating to Spain in June 2026, seeking a mid-to-senior role in a European product team — remote worldwide or hybrid Europe. EU work authorization in progress.

## PROFESSIONAL EXPERIENCE

### ● Solo Founder · Full-Stack Developer Nov 2025 – Present

Remote · Brisbane, Australia

- ▶ Running two products end-to-end, from design to deploy: a multi-tenant **SaaS for cleaning companies** (live in production with first paying client in Brisbane, Australia), and **FourHub**, a mobile marketplace connecting private car sellers with verified dealerships (launch September 2026)
- ▶ Full ownership across backend, web and mobile frontend, infrastructure, deployment and customer support
- ▶ Started in parallel with Essentia Group role; became full-time focus after March 2026
- ▶ Stack: React, React Native, Expo, Node.js, Express, TypeScript, PostgreSQL, Prisma, AWS EC2, Docker, Hostinger VPS

### ● Full-Stack Developer · Essentia Group Jun 2023 – Mar 2026

Campinas, Brazil · Remote from Australia (Oct 2024 on)

- ▶ Joined to own the digital marketplace, initially on **Magento** and **Magento 2**
- ▶ Led a hackathon project that built an automated invoice reader using **Amazon Bedrock** and other AWS services — still in production today, used by partner resellers to apply campaign credits automatically
- ▶ Gradually shifted technical stack to **Node.js, React and TypeScript**, delivering standalone internal tools adopted across multiple teams
- ▶ Became the only remote developer in the team after relocating to Australia in October 2024, delivering independently with asynchronous collaboration until contract end in March 2026

## SOFT SKILLS

- End-to-end product ownership
- Remote-first async collaboration
- Self-directed learning
- Cross-cultural adaptability (BR → AU → ES)
- Multilingual technical communication
- Product thinking beyond code

## TECH STACK

### LANGUAGES

JavaScript, TypeScript, PHP, HTML, CSS

### FRONTEND

React, React Native, Expo, Tailwind, Vite, Next.js

### BACKEND

Node.js, Express, Prisma, REST, JWT, bcrypt

### DATABASES

PostgreSQL, MySQL

### CLOUD & INFRA

AWS (EC2, Bedrock, S3), Docker, Vercel, Hostinger VPS

### TESTING & CI

Jest, integration tests, GitHub Actions

### INTEGRATIONS

Resend, Twilio, Stripe, FIPE, Maps deep links

### E-COMMERCE

Magento, Magento 2

### METHODOLOGY

Agile, Scrum, Kanban

## ● Junior Developer · Zaztech (Fintech)

Jun 2022 – Jun 2023

São José dos Campos, Brazil

- ▶ Started as intern in June 2022, promoted to full-time developer in December 2022
- ▶ Built integrations consuming APIs from fintech providers (**Cellcoin**, **Zoop** and others) in PHP
- ▶ Developed a mobile application for **Figueirense Futebol Clube** (Brazilian football club)
- ▶ Foundation of my technical career — first hands-on exposure to production software and payment systems

## EDUCATION

### ● Software Engineering

Estácio University, Brazil

Paused Oct 2024 (relocation to Australia)

### ● IT Vocational Education (VET)

ECA College, Australia

Current

### ● English (Advanced)

Albright Institute & ECA College, Australia

Oct 2024 – Present

### ● High School

Colégio Adventista de Florianópolis — Estreito Unit, Brazil

## ONLINE CERTIFICATIONS

- **Rocketseat** (Brazilian developer academy) — Full-Stack Bootcamp, Programming Fundamentals, Node.js, React.js, REST API Development
